**Subject:** Toll Free Number for the Gold Field Response

We've been able to establish a toll free number for the Gold Field response action: 844-607-9700. We anticipate Ron Curry will announce this in a public meeting this evening.

There will be a live person answering the phone to take concerns, sampling requests and follow up requests. These logs will be distributed to us and R 8 & 9 daily in the am.

More about the hotline will need to be worked out among the Regions.
